DETAILED ACTION

1. Applicant's amendment filed on April 10, 2006 to cancel claims 4 and 11, and amend claims 1, 5-8, 10, and 12-14 has been entered and made of record.

Allowable Subject Matter

2. Claims 1-3, 5-10, and 12-14 are allowed.
3. The following is an examiner's statement of reasons for allowance:

It is noted that amended claim 1 includes the claimed features previously recited in claim 4 which was indicated allowable in the previous office actions mailed 10/21/05 and 2/10/06. Accordingly, claim 1 is allowed because the prior art of record fails to teach or suggest these claimed features that of "applying a first weighting coefficient to the displaced preceding filtered image and a second weighting coefficient to acquired current image". Dependent claims 2-3, and 5-9 are also allowed for the same reasons as above.

It is also noted that amended claim 10 includes the claimed features previously recited in claim 11 which was indicated allowable in the previous office action mailed 2/10/06. According, claim 10 is allowed because the prior art of record fails to teach or suggest these claimed features that of "wherein the function rule comprises a weight average, and the current filtered image is elaborated by a weight average according to the following: applying a first weighting coefficient to the displaced preceding filtered image and a second weighting coefficient to the acquired current image". Dependent claims 12-14 are also allowed for the same reasons as above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
